A casual game that will entertain millions of players worldwide. CATO is the story of a feline whose job is to kill. A simple job, but it comes with its share of challenges, since to avenge their owner's death, the cats of the council have sworn to eliminate the most skillful assassin. The renowned assassin Cato, who is called Cat because of his great skills, has been hired to settle the conflict, and he has very few allies. A simple game in which the object is to see which cat can kill Cato before the end of the game. Gameplay Cato: The cat who won't lose GAMEPLAY At the end of the game, a cat will be the most skillful, according to its statistics in the ranking. The winner is the cat who is rewarded with the most points. All cats are registered in the ranking at the beginning of the game, and there will be rewards based on their rank. The game consists of two phases: Classic and survival. The classic phase is not really a game: it simply serves to increase the stats of your character, and to allow you to see how this will affect your ranking. In survival, you will be in a class with other cats: for instance, you will fight with cats that are ranked 1 to 10. You have four cats in the game, two of which are hidden: the cat that will be attacked first is the one that will be dressed, and the one that has the highest rank will be the one who gets the first shots. It is also possible that the first shots will be directed at an incapacitated cat: if you see a cat with an unfriendly sign, you have the chance to aim at him and reduce his score. These fights are not simple: for the first rank, the hit rate is 50% for the first shots, the second 40%, the third 35%, the fourth 30%, and the fifth 25%. The last rank has the lowest rate of fire. The amount of damage is also different for each rank. Cats CATO THE CAT (referee): Cato, the cat, is the face of the game. He is the strongest cat at the start of the game, and his main skills allow him to take fast and long shots. Since his code is 009, he is the one who will win the game for the first rank. M

You are the leader of a small fleet of space ships. Go from the underground cities of Earth to the inner asteroid belt of Sol in this turn-based 4x with a focus on resources management, trade and production chains. Build space stations, mine asteroids, manage your work force and carefully handle diplomatic relations with your homeland, neutral faction, pirates, and competitors. Be the first to build a massive and expensive Galactic Stargate connecting our solar system to Alpha Centauri. Key features: + New & Exciting Space Economy Space has become a very profitable business. You must establish a strong presence in order to obtain raw materials, precious ores and alien artifacts and to gain new territories. + Unique Sci-Fi Universe Universe is well designed, all elements are focused on supporting the core gameplay: space resources, work force, planets, space stations, etc. New worlds, alien artifacts and odd factions await you. + Intuitive Interface You can use the map window to see where your work force is located, see where the space stations are, see where new planets are, check your fleet size, etc. It is very easy to play the game and get a full understanding of it. + Hundreds of Asteroids When you start colonizing, the asteroids become the heart of the game. You have to move them around the map and mine them in order to replenish your resources and you will see how precious they are and how, once you extract them, the game gets difficult. + Two Play Modes A few people don't like a turn-based strategy game, so Stellar Resource was built in an interesting way: one mode is turn-based, and the other is real time, which is the "unique" feature of the game. + Stellar Multiplayer We are adding regular multiplayer support for Stellar Resource, where two players fight against each other in a battle-of-factions game to gain the upper hand on the space map. + Command the Galactic Stargate It is your duty to lead a group of people to the stars in search of new discoveries, people and colonies. + Broad Epic Sci-Fi Cast You will meet many different characters. For example, you will meet the president of an Earth shipping company that will also sell you a contract to send ore, you will meet smugglers who sell you new technologies, and you will meet large enemy groups of pirates and war zones. + Huge Lists of Missions You can build space stations and mining facilities on
